

Can you write an invitation to a party?

When Barbara and Howard were married they would have needed to have written invitations to invite guests.

Today I would like you to write an invitation to a party that you will be hosting. Maybe it could be a tea party, birthday party or maybe you are getting married!

Your invitation will need to include:

- What is the occasion? Birthday, tea party etc...
- Who's hosting the party?
- Date
- Where is it?
- Do they need to bring anything special? E.g. a superhero outfit for a superhero party, old clothes as you will be going quad biking.

You might need to draw pictures and add colour to match the theme. For example footballs for a football party or a guitar for a music party.
