

## Computing

For this terms computing lessons we are going to concentrate on Digital Literacy.

We are going to follow the BBC Bitesize computing curriculum. Each lesson is relatively short and often they contain games, interactive programs or video clips to support your child's learning.

This week we are going to tackle the first 2 lessons:

Lesson 1: What is a computer?

<https://www.bbc.co.uk/bitesize/topics/zymykqt/articles/zc4x6sg>

There is an interactive program which you can click on to show you different items which contain computers and there is also a game.

Lesson 2: How can computers help you learn?

<https://www.bbc.co.uk/bitesize/topics/zymykqt/articles/zxbwjxs>

In this lesson there is a game where children need to match computing icons to words.

Please click on the links which will take you to the correct pages.
