

Wednesday 3<sup>rd</sup> March

Climate Change- Renewable Energy

- 1) Look in the **information folder** and use either the powerpoint or the pdf posters (or both if you can access both) to help you learn about renewable and non-renewable energy.
- 2) Do the **advantages and disadvantages 1 activity** to consider the good and bad points about different types of energy. Check your **answers** to ensure you understand.
- 3) Do the **renewable v non-renewable** resources 2 sheet.
- 4) Finally, use the **challenge cards 3** as a verbal quiz- how much have you learnt?
