Climate Change- Young Activists- no-one is too young to make a difference

Fantastic Like Finlay:

- 1) **Look at the Finlay Pringle assembly powerpoint** to find out how a young boy's interest in sharks led him to become an ambassador for sharks across the globe.
- 2) Think about how you can make a difference and change the course of climate change by completing the **hand promises sheet**. We will develop these ideas in future climate change lessons.

You could **look at these newsround clips** of other young climate change activists to help inspire your thoughts before you complete your promises sheet.
