

Rosie, Mo and Eva are painting a wall.

Rosie has painted $\frac{1}{5}$, Mo has painted $\frac{6}{20}$

and Eva has painted $\frac{4}{10}$

They have $\frac{1}{10}$ left to paint.

Jack

True

$$\begin{aligned} & \frac{1}{5} + \frac{6}{20} + \frac{4}{10} + \frac{1}{10} \\ &= \frac{2}{10} + \frac{3}{10} + \frac{4}{10} + \frac{1}{10} \\ &= \frac{10}{10} \end{aligned}$$
