

Monday 22nd February

English task sheet

Homophones and near homophones

There are two sheets in the folder today.

This should be a relatively quick task that shouldn't take you more than **half an hour** as there is a longer maths session today.

Please do not write on the sheets.

1- Do a **new title and date** underlined in your English book.

For **sheet 1**, list in pairs or threes, the homophones that you can see on the sheet.

e.g. *main, mane*

pair, pear

2- For **sheet 2**, see if you can write **four extended sentences** that each **include both homophones**.

e.g.

My main task this morning is to brush my horse's mane in order to get out all of the tangles after it has rolled in the hay.

Please underline each homophone and make sure you spell them correctly!

Enjoy,

Mrs P
