Climate Change- The Future

Now that you have a bit more knowledge about climate change and have some super vocabulary in your toolkit, we are going to think a bit more about the future and how we can make a change.

- 1) **Read the information** on the two pages 'The Future- info 1 and 2' from the folder.
- 2) **Answer the questions** on the two **question sheets**.
- 3) **Watch the four newsround clips** below and for each one, **bullet point** in your topic book what you have learnt. The information will all be useful in future lessons.

'How do scientist think we can better look after our planet?'
