

3. Page 35 of the Study Book shows some ways we can reduce global warming.
How do each of the actions below help to reduce global warming?

Recycling a plastic cup helps because

Switching off lights when they're not needed helps because

4. A primary school class is planning a class picnic in their local park. The plan they have written is shown below. Write down three ways that they could change their plan to reduce the impact of their picnic on the environment.

Class 5B's Picnic Plan

- Send a letter to each pupil's family with details of the picnic.
- Ask everyone to bring enough food for themselves.
- The school will provide one paper plate and one plastic bottle of water for each pupil.
- The school minibus will take us to the park.
- After the picnic we should collect up and throw away the used plates and bottles.
