

## Climate Change tasks

**Monday 1<sup>st</sup> February**

### **The Effects of Climate Change**

Write a **new title and date** in your **topic book**.

1- Task 1- **Vocabulary check**

Print out the sheets if you can and **match the word and image to the definition**. If you haven't got access to a printer, write the words neatly in your book followed by the correct definition.

2- Task 2- **Understanding check**

**Read** the two pages of information (**effects of climate change**)

**Answer the questions** from the two sheets (1 and 2) **in your topic book**. **Make sure you set answers out as they appear on the question page please.**

Please take care to do a good job of the **t-shirt design** (you may want to leave it as the last task) as we may go on to develop these ideas later on in the term. I have included a **t-shirt template** in the folder if you want to print that to use and then cut out the shape to stick in your book, or you can draw the outline yourself on plain paper.

**Have a good afternoon,  
Mrs P**
