

Effects of Climate Change

Climate change can have lots of different effects on people and wildlife. Pages 32 and 33 of the Study Book show some of the problems climate change can cause.

1. Look at the effects of climate change on pages 32 and 33 of the Study Book. Design a T-shirt to warn people about one of these effects.

2. The oceans absorb greenhouse gases, which changes the water and can harm ocean creatures. Why could this be a problem for humans?
