

## AFTERNOON TASKS

Wednesday 27<sup>th</sup> January

### Reflections Art

- 1- You are going to use your reflection maths skills and your artistic eye to complete this task **over two afternoons**- today and tomorrow.  
Spend an hour today and complete it tomorrow.  
You will need to work neatly, carefully and remain focused- as it is easy to make an error.

*Follow my step by step instructions in the reflections art folder- you should end up with a fab, colourful, eye-pleasing design with reflective symmetry. They would make perfect tile designs!*

**You will need:**

- *squared paper (you have some in your maths book)*
- *a sharp pencil*
- *sharp coloured pencils*
- *a ruler*

*(I have used smaller versions of these to make birthday cards for people- they are really effective)*

- 2- Watch today's **newsround** -click on the link:

[https://www.bbc.co.uk/newsround/news/watch\\_newsround](https://www.bbc.co.uk/newsround/news/watch_newsround)

Mr Debenham is really keen to share some **thoughtful prayers** in the newsletter again this week, so please send any prayers (you can write them in your topic book) to the teacher email FAO Mr Debenham.

Thank you.

**Have a lovely afternoon,  
Mrs P**
