

## Class 5 computing

Tuesday 14th January

### Online safety

Spend **an hour** on your task this afternoon, just like we would in class.

- 1- **Create your poster** to remind people of your age how to chat online safely-

Use your detailed plan from yesterday and any of the resources you used yesterday from the folder- it will all still be there.

Use **plain A4 paper** and fill the page- ensure...

**it is neat**

**all spellings are correct**

**all punctuation is correct**

**it gets the message across**

**it appeals to your age group**

**it is your best effort**

#### **Remember:**

*What would your **key messages** be?*

*How would you **persuade** them that they **must** follow the rules?*

*What **images or layout** would help them remember your advice?*

*Can you think of a slogan or saying that they could easily remember to help them know what to do?*

Send me **a photo of your finished poster with your email**

See you tomorrow morning,

Mrs P
