Class 5 Music

You have done a similar task to this with Mr Debenham a couple of months ago!

Listen to the piece of music using the link below. DO NOT **WATCH** the You Tube video – close your eyes and turn your device around so you can't see it. Just **LISTEN** to the music.

Think about what images come into your head ...

Think about these aspects of the music:

- Is it fast / slow?
- Is it loud / quiet?
- Which instruments are playing?

After listening to the whole piece of music, get a piece of paper, a pencil and some colours. Turn the music on again and whilst you listen for a second time, draw the images that sprang into your head ... use the whole piece of paper.

Do you picture an animal? Something in the natural world? People doing certain things e.g. a circus ...?

Draw neatly and then colour your picture. Use your imagination. There is no correct answer!

Afterwards, write a short paragraph about WHY you drew this image – what was it about the music that made you think of that?

Here is the link:
