

## Climate Change- Be the Change

Thursday 7th January

**You should spend an hour on this task as you would in class normally.**

### Lesson 1-

1- Open the **powerpoint** in the folder: **-uks2-a-life-on-our-planet-introduction powerpoint**

Read carefully through the **first ten slides**, clicking on the **two video-links** when they appear.

**Answer the questions** when they appear on the screen.

**Stop** after looking at the second slide titled **'How many people are there in the world?'**

2- **Create a title page** for our topic this term on A4 plain paper. Include our topic title: **'Climate Change- Be the Change'** and **'Spring Term 2021'**. Stick this in the front page of your new topic book. Don't forget to make it clear, bold and colourful with relevant illustrations.

**When you have finished this**, please **read** and **record** this in your reading record (or the back of your English book if you have left your reading record at school) and follow the link to **Julie's worship on the website**.
