91	92	93	94	95	96	97	98	99	100

multiples of 10

What comes before and after in the number sequence?

Circle the odd one out in each number pattern.

Correct the mistake and tell your partner why it is wrong.

0, 10, 2, 30, 40, 50, 60, 70

0, 5, 10, 15, 20, 21, 30, 35

0, 2, 4, 6, 8, 10, 11, 12

What comes before and after in the number sequence?

Circle the odd one out in each number pattern.  
Correct the mistake and explain why it is the odd one out.

0, 2, 4, 5, 6, 8, 10, 12, 14

10, 20, 30, 40, 50, 55, 60

35, 40, 45, 50, 56, 60, 65

Circle the odd one out in each number pattern.

Correct the mistake and explain why it is the odd one out.

20, 18, 16, 14, 12, 10, 8, 7, 6, 4

100, 90, 80, 70, 60, 15, 40

75, 74, 65, 60, 55, 50, 45

What number does each child stop at?

I count forwards in steps of 5 from the number 25.  
I count 9 times. The number I stop at is \_\_\_\_\_.

I count backwards in steps of 10 from the number 100.  
I count 10 times. The number I stop at is \_\_\_\_\_.

I count backwards in steps of 2 from the number 16.  
I count 6 times. The number I stop at is \_\_\_\_\_.

I count backwards in steps of 5 from the number 100.  
I count 10 times. The number I stop at is \_\_\_\_\_.
