Sainsbury's School Games Qualifier

On Tuesday 15th November Olivia, Lainez, Bella, Sophie, Bethan, Maddie and Grace went to Earl Mortimer College to play six netball matches against lots of different schools. The schools were: Luston Primary, Leominster, Orelton A and Orelton B. Stoke Prior and Ivington.

Because we had won all six of our matches we played the final against Orelton A, and we won 2-0. At the end (at the presentation) they gave out medals to the schools that came 1st, 2nd and 3rd. The results were 3rd Leominster, 2nd Orelton A and 1st **Kingsland!!**

We all really enjoyed ourselves and now we are automatically through to the proper Sainsbury's school games.

by Olivia Edgington

On Tuesday the 15th of November we took a team of 7 netballers to play at Earl Mortimer in the winter games qualifiers tournament. The netball team played 8 matches in total and won all of them! The girls playing showed great teamwork and true sportsmanship.

As we won the tournament it means the team will now be going through to the Winter Games next term. A fantastic achievement. Well done girls!

Miss Lark

Spots and Smarties make £600!!

This year's fund raising effort made a whopping £600 for Children In Need !!

The 20p pieces filled two massive Smartie tubes which the Year 6 organising team took to BBC Hereford & Worcester.

They spoke with great enthusiasm on the local radio station and were broadcast 'live'.

Thank you to everyone involved with this fun-filled fund-raising activity.

St Fagan's National History Museum

Our Visit to St Fagan's

Last Thursday Class 3 and Class 4 went to St Fagan's in Cardiff. We went there to learn more about the Stone Age and homes through time.

After getting a bit lost in the forest, we found our way down to a double roundhouse built during the Iron Age. We all tried to use the stone grinder to grind flour. It took a lot of time to make flour. It was storming outside but the rain didn't come through the thatch roof.

We saw houses built in Victorian times. They had china cups and plates and were more modern than the roundhouses. I found the cockfighting ring interesting. In those days it was entertainment, but nowadays I think it would be mean!

During the day Class 4 got soaked but we were lucky and managed to stay dry even though it rained. We think it would be fun to live in the Stone Age and be able to make lots of tools and weapons.

KINGSLAND C.E. PRIMARY SCHOOL PTA

Donations for the upcoming Bingo should be brought in to school next week if you haven't already done so. The hampers are on the following themes and to help we have split them into classes but please let your imagination take control. Obviously any donation will be gratefully accepted.

- Class 1: Sweets & Chocolate
- Class 2: Pamper & Christmas
- Class 3: Autumn & Wine / Gourmet Food
- Class 4: Toys & Homeware / Gardening
- Class 5: Fashion & Movie Night

We have had some other amazing prizes donated for the raffle but if anyone has any contacts of businesses or individual that they could ask for a donation that would be brilliant just to make our bingo stand out from the rest.

Help will be needed on the night from 5 pm onwards and we have had several offers can you reconfirm with me if you have offered. Also help will be needed to make up hampers – possibly during next week or on Saturday again if you could firm up with me or another committee member that would be great.

Any queries let us know and we look forward to seeing the growing pile of hamper donations next week.

'Stone Age' on the Millennium Green

Last week Class 3 went to the Millennium Green with Sam Goddard (from Forest Schools) to find out more about how Stone Age people lived.

Sam showed us how to make Nettle String out of nettles. We took the leaves off and bashed it with a mallet. Then we twisted it to make a strong string.

by Charlie Strangwood

Stone Age people first rubbed sticks together to make friction and then start a fire. Then they used flint to make a spark and start a fire. We cooked some flatbread on the fire. It was yummy!

by Jacob Gray

We made dough out of flour, oil, salt and water. It was gooey and stuck to our hands! Each child got a piece to make into a flatbread. Then we cooked it on the griddle over the fire. Some of us put seeds in the dough like the Stone Age people would.

We had a brilliant day!

by Leah Davies and Olivia Hughes

Headteacher's awards were presented to:
Jaxon and Flynn for being so eager to learn; Mark, Millie, Hope, Josh and Heidi for poetry; Daniel and Rochley for writing; Archie and Alan for maths and Imogen for music.

Christmas Lunch

Please can we remind you that we need
all orders for Christmas lunch into the
school office by

Monday 28th November

Thank you
