Who is correct? Explain how you know.

Who is correct? Explain how you know.

5a. Which calculation is the odd one out?

5b. Which calculation is the odd one out?

56 ÷ 4 =

70 ÷ 5 =

45 ÷ 3 =

84 ÷ 6 =

98 ÷ 7 =

48 ÷ 3 =

64 ÷ 4 =

96 ÷ 6 =

80 ÷ 5 =

84 ÷ 7 =

6a. Match the following statements with the correct card.

6b. Match the following statements with the correct card.

Harry

My calculation needs no exchange.

Sandra

My calculation is solved incorrectly.

Paul

My calculation needs to exchange.

Alice

My calculation needs no exchange.

Daniel

My calculation is solved incorrectly.

Kavita

My calculation needs to exchange.

96 ÷ 8 = 12

65 ÷ 6 = 11

84 ÷ 4 = 21

84 ÷ 7 = 12

88 ÷ 4 = 22

92 ÷ 4 = 24
