

The Frozen Palace

Monday 25th January 2020

Improve the sentence below, following the given instructions.

The sky was blue. Everything was covered in snow. The palace used to be a nice place. Now it wasn't.

Write a new sentence for each instruction, using the previous one as a starting point.

- 1) In the first sentence, add in a shade of blue before the word 'blue' and extend the sentence using 'with'.

E.g. *The sky was light blue with clouds in it. Everything was covered in snow. The palace used to be a nice place. Now it wasn't.*

- 2) For sentence two, add a relative clause about the snow beginning with the relative pronoun 'which'.

E.g. *The sky was light blue with clouds in it. Everything was covered in snow which glistened in the sunlight. The palace used to be a nice place. Now it wasn't.*

- 3) In sentence three, replace 'nice' with a better synonym.

The sky was light blue with clouds in it. Everything was covered in snow which glistened in the sunlight. The palace used to be a magical place. Now it wasn't.

- 4) Extend sentence four using 'because'.

The sky was light blue with clouds in it. Everything was covered in snow which glistened in the sunlight. The palace used to be a magical place. Now it wasn't, because of its inhabitants.
