

- 1) Look at the number line that has been drawn to solve the calculation  $37 \times 3$ .

Complete the number line and use the same strategy to solve the other calculations.

a)  $37 \times 3 =$  \_\_\_\_\_

b)  $72 \times 6 =$  \_\_\_\_\_

\_\_\_\_\_

c)  $48 \times 5 =$  \_\_\_\_\_

\_\_\_\_\_

- 2) There are 7 fields on the farm.

Each field contains 36 sheep and 22 cows.

Solve the problems below using number lines.

a) How many sheep are there? \_\_\_\_\_

\_\_\_\_\_

b) How many cows are there? \_\_\_\_\_

\_\_\_\_\_

c) How many animals are there altogether? \_\_\_\_\_
