The Lion King tells the story of Simba, the lion cub, who grows into a curious young lion through 'The Circle of Life'. His father, Mufasa, teaches him important life-lessons before he is brutally killed by his brother, Scar. Scar becomes king and Simba flees to the jungle where he meets Pumbaa and Timon who teach him all about 'Hakuna Matata'. After some soul-searching, Simba returns to the pride and banishes Scar, becoming king himself.

Some of the most famous songs in The Lion King include:
