

Invincible

**When all is lost and hope is gone
When life is frail and hearts are weary
The echoed words unbeaten still
Will show our strength and dignity**

**To dream the dream of victory
To feel the fight that drives us all
To take a place in history
And bring home our hearts for thee**

**And when we hear those distant drums
And when we feel our hearts grow stronger
When we see the crowds draw near
Our fears dissolve, our heads hold high**

**To dream the dream of winners past
To feel the fight that drives us all
United strong, forever faithful
We hear the cries of victory**

I am proud, I am strong

I have might and I have spirit

Sacrifice and stars are born

Unconquered still, we stand as one

**To dream the dream of winners past
To feel the fight that drives us all
United strong, forever faithful
We hear the cries of victory**

**When we look back from where we came
We've found a place, we'll rise or die
To dream a dream of victory (*victory*)
We feel the fight that drives us all
To victory**
