

# Launch Your Name to Mars in 2026!

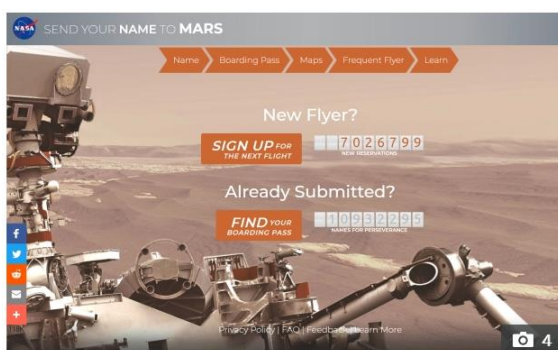

NASA has announced that it is accepting applications for wannabe space explorers who wish to fire their names to the Red Planet!

Microchips engraved with millions of names will make the 34-million-mile journey aboard a mission planned for 2026.

## How to send your name to Mars on Nasa's next mission to the Red Planet

Follow the link:

<https://mars.nasa.gov/participate/send-your-name/mars2020/>

Click on "Sign up for the next flight" and type in your name, address and email to secure your place.

You will be provided with a boarding pass that they can show off to friends and family!

**Remember, in 2026 your name will go to Mars!**
