

How to Wash Up

Your class has been cooking. There are lots of dirty plates and bowls.

Task

Your task is to write the instructions for how to wash up.

How to Wash Up

List what you will need:

Instructions: Think about what you do and the order you do it in.

Now you need to write up your set of instructions. My big tip for you is to pretend that you are writing these instructions to an alien who has just arrived on Earth. An alien knows very little about anything on Planet Earth, let alone washing up.

Could you use numbers and bullet points to help you present your work? You may need to draw a picture to help.

On the following page is an example to help present your work.

Finally, you will need to test your instructions, so this evening you will need to follow your instructions and help with the washing up!

How to Catch an Alien

Would you like to catch an alien? Use these instructions to help you.

You will need

- a pair of unused underpants
- a rope
- a stick
- a large cardboard box without a lid
- a fishing net

1. Make a small hole in the box near to the top.
2. Push the rope through the hole. Leave one end longer than the other.
3. Tie the rope in a knot.
4. Put the box outside.
5. Use the stick to prop up the box under the rope.
6. Place the pants underneath the box.
7. Pick up the other end of the rope.
8. Take your end of the rope and hide near to the pants.
9. Wait for the alien to come to get the pants.
10. Pull the rope hard to knock the box down on top of the alien.
11. Lift the box up and scoop the alien into the net.
